

Introduction to Modern Languages French/German/Spanish/Italian

From Beginner to Advanced, language learning has never been easier. Our training method makes learning a second language accessible, enjoyable and available to all. Participants are provided with practical language which they will learn to use with confidence and ease.

The programme is flexible, fast and effective using the most up to date language training method available, called Blended Learning. This approach blends online language learning with traditional classroom work, making language learning easier, quicker and more enjoyable.

You can study in your own time and at your own pace while your tutor can track your online progress and address any difficulties with unprecedented accuracy. The classroom time is used to develop your communication skills, bringing what you have learned to life.

12 week programme, 2 hours per week in the classroom with access to over 2000 hours of online training which is tracked and supported by the tutor. (A minimum of 2½ hours of online training is recommended per week.)

Courses commence every three weeks
