

## Practical English

Practical English is a course specifically designed for English as a second language (ESL) learners who are living and working in Ireland. Our programme focuses on useful language which you can bring to your day to day life.

Practical English is flexible, fast and effective using the most up to date language training method available, called Blended Learning. This approach blends online language training with traditional classroom work, making language learning easier, quicker and more enjoyable.

We aim to have you confidently communicating in English. The online voice-recognition technology means you can work on your pronunciation skills in your own time while your tutor provides interesting and enjoyable classroom activities. You will be using the language you have learned with freedom and ease.

*Courses available from Beginner to Advanced*

**12 week programme, 2 hours per week in the classroom with access to over 2000 hours of online training which is tracked and supported by the tutor. (A minimum of 2½ hours of online training is recommended per week.)**

Courses commence every three weeks

\*Cambridge BULATS available on the completion of the course if desired
